

# Robota Psyche

Snehil and Genie

# Vehicle 4: Values and Special Tastes

- Vehicle 4 is the improved or the advanced version of vehicle 3.
- The sensors and motors now function on the maximum speed the vehicle can reach.
- When the sensor is activated the motors reaches a maximum speed and after that the speed will decrease again.
- Now, can you think of an animal that may have the same behaviour as this vehicle?

# Vehicle 4a/b

1. What kind of real life examples can you think of by looking at these trajectories?
2. Do you think these vehicles are follow a human like behaviour pattern?
3. What ideas did you have for other movers with different mechanism of motors and sensors? What kind of behaviour will they have?

**Figure 7**

Trajectories of vehicles of brand 4a around or between sources.

# No Women Born

- Is it ethical to make a person robot? Resurrection into machinery?
- How would you react if you see Deirdre on TV?
- What gives us humanity? What constitute a human?
- How would you distinguish between a robot and a human?

# Star trek: The measure of a Man

- Robot Rights? Property of the fleet?
- Do you think Data is right? Memory that has been restored is not the original memory anymore?
- Why are the humans not required to replace the parts of their body with new-tech?
- Define sentience?
